WORKPAGE LEADER

# Establish and implement lasting structures for increased student mobility

- › Long term mutual agreements that include cooperation between staff and student exchange at three universities in Europe and one university in India
- › Develop a model to be used when establishing cooperation with future universities
- › Develop models to provide predictability for students:
  - › How and where exchange takes place
  - › Clear overview of when exchange is possible
  - › Offer a portfolio of preapproved courses at host universities

## AIM FOR WORK PACKAGE TWO

- › Long term mutual agreements that include cooperation between staff and student exchange at three universities in Europe and one university in India
- › Develop a model to be used when establishing cooperation with future universities
- › Develop models to provide predictability for students:
  - › How and where exchange takes place
  - › Clear overview of when exchange is possible
  - › Offer a portfolio of preapproved courses at host universities
- › Develop structures in the institute with clear description and responsibility

# What we're working on

- › Exploring
  - › staffs way of thinking internationalisation
  - › staff opinions and ideas with regards to student mobility
  - › partner universities courses offered in English
- › Establish personal contact with partner universities
- › Learn more about educations offered at partner universities
- › Overview of Erasmus+ agreements

- › Part of pilot project:
  - › Using app to preapprove courses at host universities, including placements
  - › Using app for mandatory placement (students has to say no to mobility using the app)
- › Start developing new course involving all three educations and incomming students
- › Implement new stucture at own institute – international team
