

Time slots	OPENING SESSION Akkie & Laura	
Central	zoom link 1 (hosted by Akkie)	
European	https://hvl.zoom.us/j/69032449606?pwd=VJlWOGZza3JDQzFsRVl0c1czNWlSdz09	
9.40 - 10.00	Parallel 1	
	Moderator: Akkie	
	Urban liveability	Paper title
		How do building-street interface properties relate to spatial configuration and pedestrian movement?
10.00	Remco E de Koning	The Global Spatial Properties of Neighbourhood Parks and Boulevards in the Tel-Aviv Metropolitan Area
10.20	Rina Magen	Impact of the Degree of Enclosure on the Use of the In-Between Spaces: Space Syntax Study from Béjaia City- Algeria
10.40	Salima Medjkoune	The socio-spatial 'embeddedness' of community-based elderly care facilities
11.00	Xiaoming Li	Accessibility analysis of Green Network of Dhaka city: a syntactic approach
11.20	Maher Niger	Pattern of Stationary Activities in the Spatial Networks of Johor Bahru Heritage District, Malaysia
11.40	Amirul Hakim Jamil	
12.00 - 13.00	BREAK	
	Moderator: Claudia	
	Towns and Cities	Paper title
13.00	Justyna Olesiak	space syntax historical analysis of a network of public spaces
13.20	Paulina Konarzewska	Acquisition of road networks for ancient cities as a significant factor influencing the results of Space Syntax analyses
13.40	Matilde Kautsky	Variations of school yards over time in relation to urban principles
14.00	Greta Kukeli	Swinging between the "medieval" and "western" characteristics. What can Space Syntax tell on how we construct our suburbs. The case of Prague's hinterlands.
14.20	Camila Santana	The pursuit of urbanity in traditional town centres: The case of fortaleza
14.40	Subik Shrestha	The syntax of streets and retail business transformation: A case of downtown Eugene, Oregon
15.00 - 16.00	BREAK	
	Moderator: Akkie	
	Towns and Cities	Paper title
16.00	Sadia Humayra Mounata	Analyzing the relation between drug crime spots and street connectivity and accessibility
16.20	Michael Livesey	From dissident to deviant... A genealogy of 'terrorism' in Northern Ireland, 1969-1981.
16.40	Rafaela Christodoulou	Case study of Limassol city in Cyprus
17.00	Hafnaoui Hamzaoui	The impact of visibility properties on the itinerary choice between men and women in the city of Biskra
17.20-18:00	CLOSING SESSION Akkie & Laura	

Time slots	Central European	
	zoom link 2 (hosted by Linn Fylkesnes)	
	https://hvl.zoom.us/j/69948357516?pwd=YzdsbWJjaExEUTQvelFivitEdWFCdz09	
	Parallel 2	
	Moderator: Evgeniya	
	Complex Buildings	Paper title
		Triangulating space syntax with behavioural analysis methods for interpreting socio-spatial functions in school settings
10.00	Quasi Anteet	Assessing educational environments: A temporal socio-spatial approach to lower secondary school buildings in Cyprus
10.20	Chrystala Psathiti	
10.40	Sepehr Zhand	Inevitability of quantitative urban research and the limiting paradox of available datasets; an example from Space Syntax
11.00	Irem Bayraktar	Spatial configuration and human movement at complex buildings [wayfinding]
11.20	Çiğdem Bayram	Perception of Occluded Space; Examining from User's Cognition and Morphology of Space
11.40	Gizem Yenel	The effects of visual and acoustical privacy on work-process interactions in open-plan offices
12.00 - 13.00	BREAK	
	Moderator: Sharifah	
	Complex Buildings	Paper title
13.00	Intisar Ameen Tyne	Patient control mechanisms in the 19th century asylums of England: A comparative space syntax analysis of asylums based on patient holding capacity.
13.20	Andreia Umbelino	At first, these houses were all alike ... Were they? How about now? Addressing conversions in housing estate units in the light of sociocultural changes.
13.40	Majed Alghaemdi	Steven Holl's Kiasma Museum and the Fluidity of Space in Movem
14.00	Eleni Bakola	Understanding spatial experience in museums of archaeological spaces
14.20	Samia Barra	Study on the Social Logic of Spatial Transformations in Social Housing
14.40	Livia Nóbrega	Hybrid Buildings: Complexity and Genericity in Exhibitions Spaces
15.00 - 16.00	BREAK	
	Moderator: Chiara	
	Urban/Social housing	Paper title
16.00	Isabel Ezquerria	Urban forms of the inner periphery: spatial configuration and habitability conditions
16.20	Emad Alyedressy	A study of spatial organisation and co-presence in coliving communities
16.40	Flávia Monaliza Lopes	Effects of Minha Casa Minha Vida (my house, my life) housing program on the everyday life of its residents
17.00	Yufeng Yang	From gated to vibrant community: comparing spatial vitality between gated and non-gated housing areas in Wuhan, China

Time slots	Central European

	https://hvl.zoom.us/j/66853413039?pwd=QVxQmdlMENDNFM1akJ6SW5KUFIsdz09	
9.40 - 10.00	Parallel 3	
	Moderator: Kimon	
	Urban/transport modelling	Paper title
		Developing a conceptual and methodological framework for defining a pattern language of urban form and automatically identifying the urban types of network centrality,
10.00	Yannis Paraskevopoulos	
10.20	Po Nien Chen	Multilevel Multimodal Network Modelling in Space Syntax
10.40	Jakub Matějček	Modal split prediction in emerging housing estates using space syntax variables
11.00	Taos Messaoudi	Diagnosis of a morphological and social cut. Case of a Mediterranean city.
11.20	Alexandre A. B. da Cunha Castro	Spatial configuration and bicycle planning in campina grande, Brazil.
11.40		
12.00 - 13.00	BREAK	
	Moderator: Wendy	
	Urban/transport modelling	Paper title
13.00	Mauricio Pereira Martins	The loiterer on the way: peri-urban centrality on the outskirts of coastal touristic villages
13.20	Muhammad Fajri Romdhoni	The Geometric Properties of Indonesian Cities: A study of the Provincial Capitals of Indonesia in relation to regional variations.
13.40	Narjiss Bakhtyari	An attempt to visualize some observable coastal urban dualities in Nabeul
14.00	Farbod Afshar Bakeshloo	A line with a history: using land-use data to plot change and continuity in Oxford Street
14.20	Sophia Arbara	Space syntax analysis and global cultural heritage attractors
