# Inkubasjonsprogram

Tre-delt program:

- Kurs
- Oppfølging
- Fysisk treff, pitching til investorer

Internasjonal dimensjon

ARTEMIS University

## ARTEMIS UNIVERSITY'S RISK INVESTOR STAKEHOLDERS

ARTEMIS is a dynamic alliance of eight universities from across Europe. Each University, situated in regions with unique challenges, come together to address pressing global societal issues, especially related to mobility. Members of the Alliance:

Belgium: Hogeschool VIVES (VIVES)

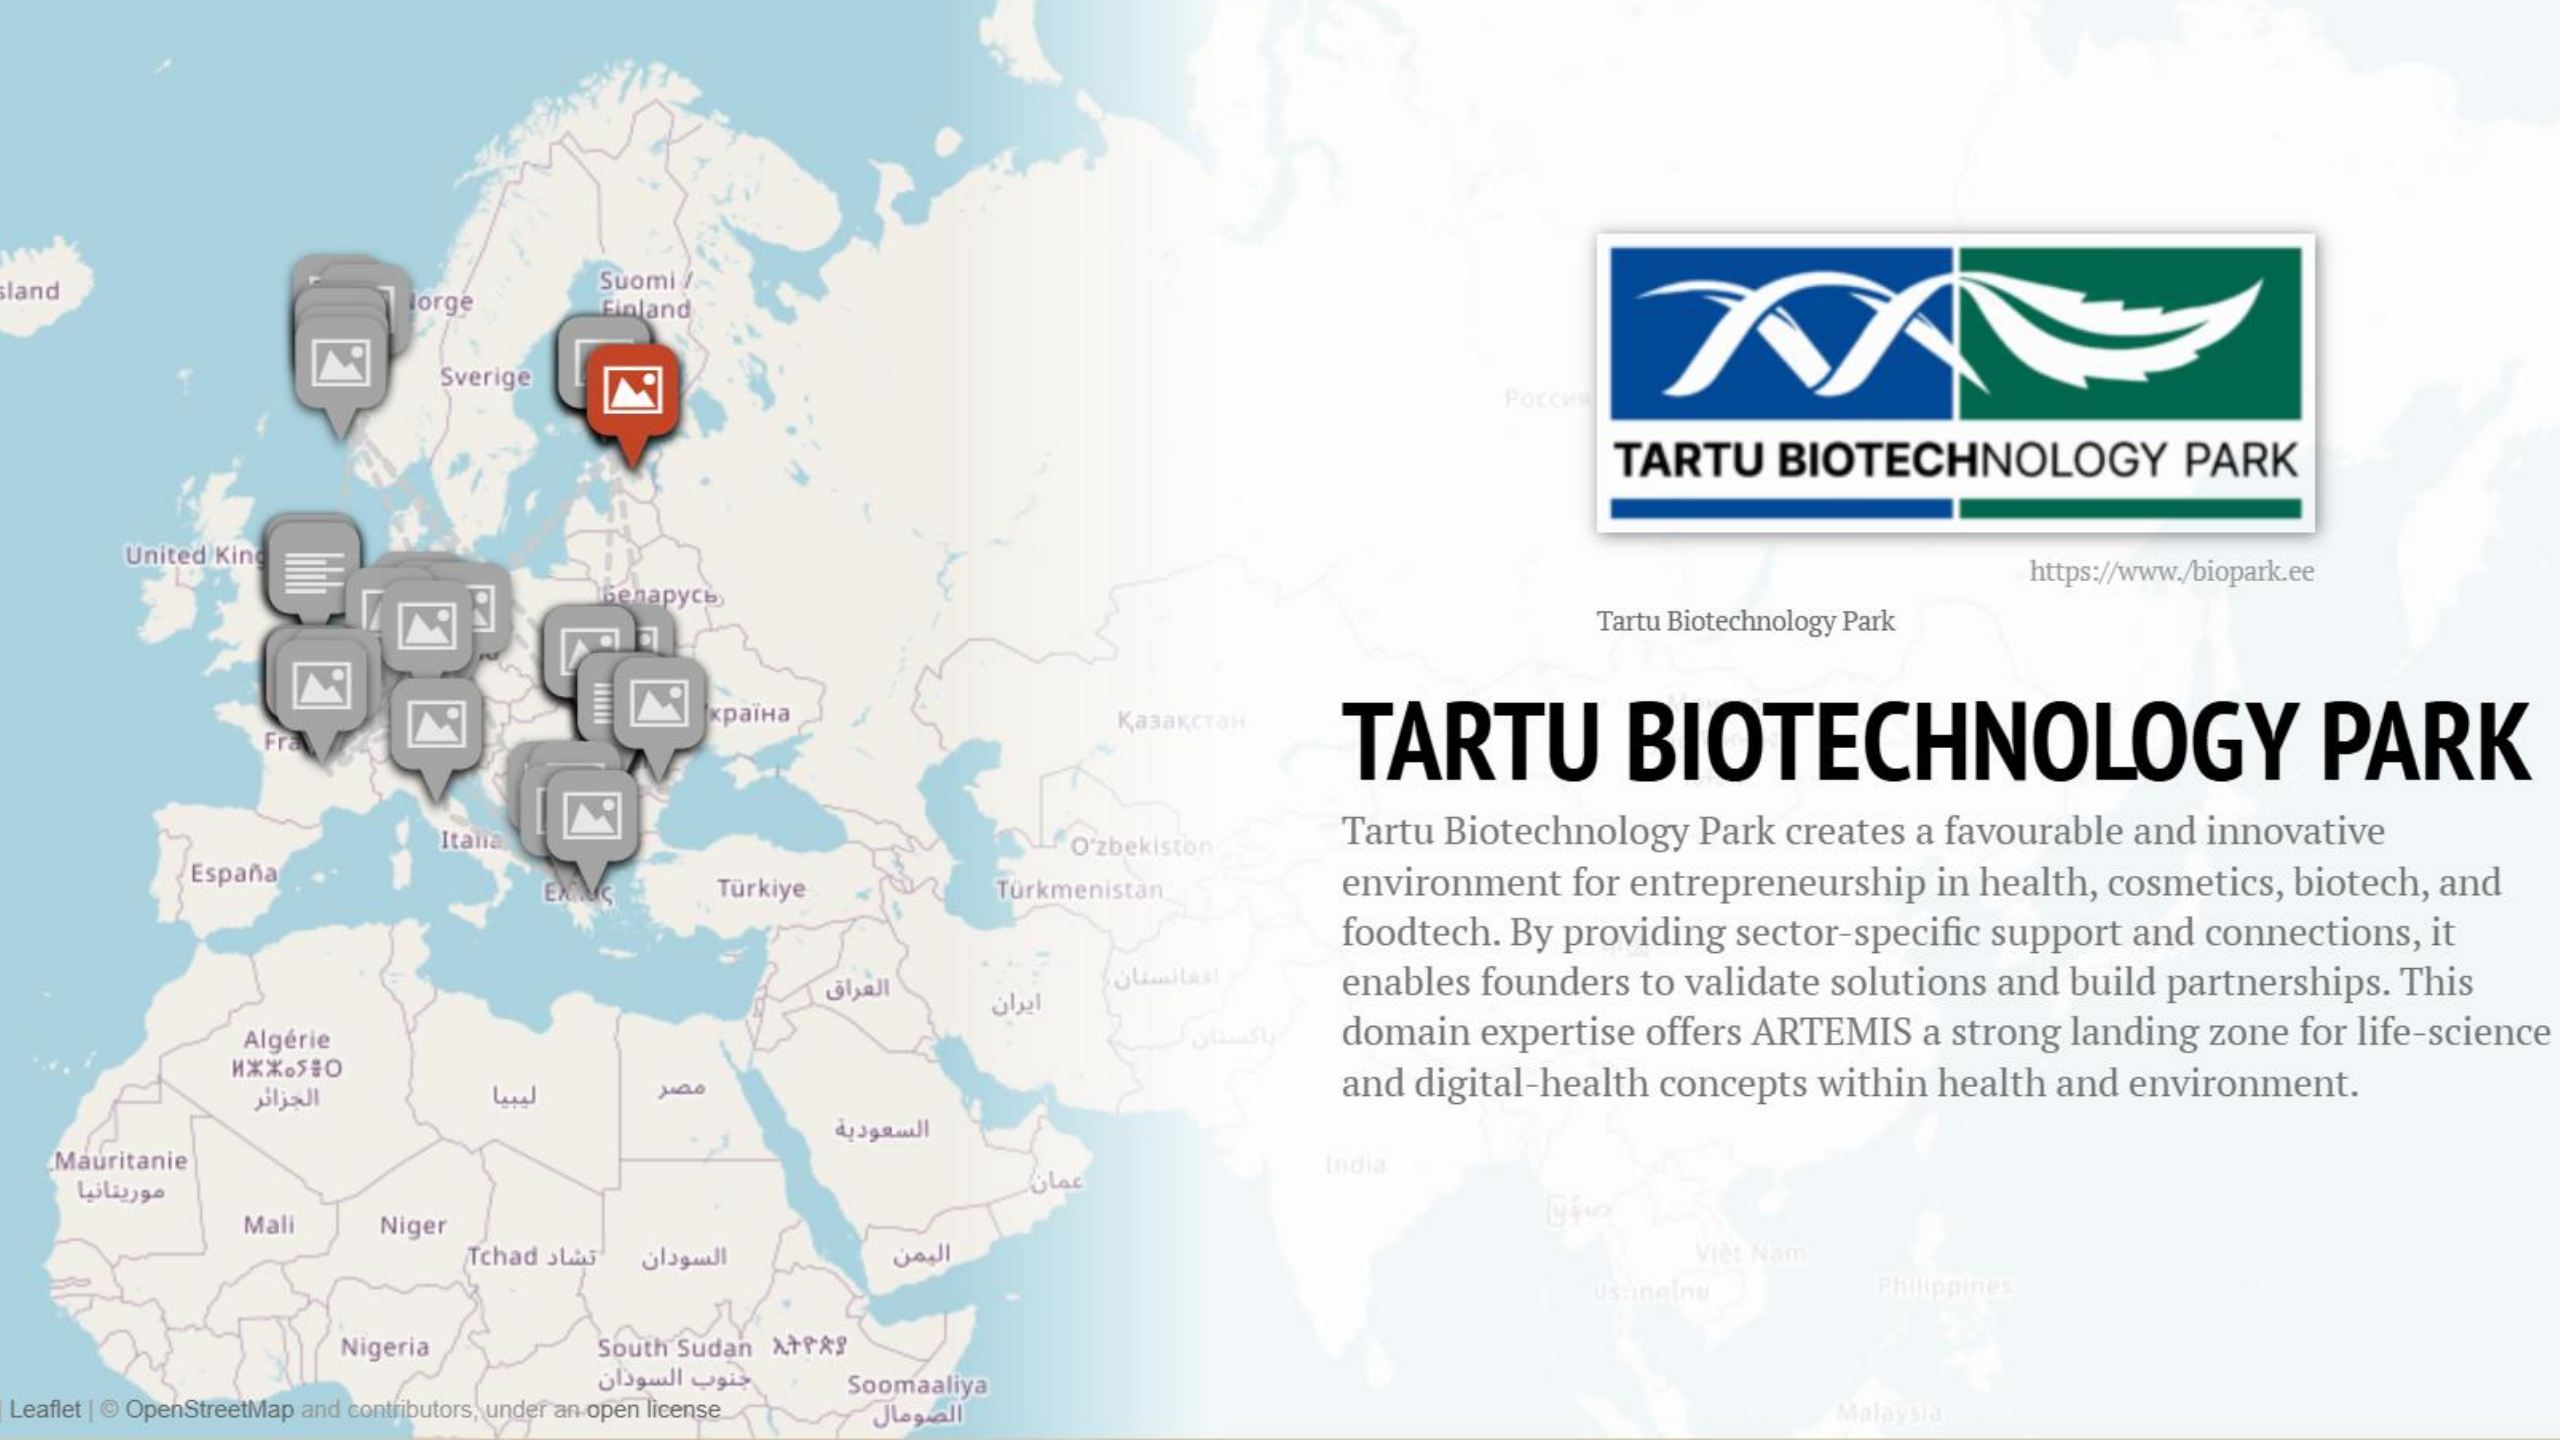

Estonia: Tallinna Tehnikakõrgkool (TTK)

France: Université Clermont Auvergne (UCA)

Germany: Ostbayerische Technische Hochschule Regensburg (OTH)

Greece: Panepistimio Ioanninon (UoI)

Tartu Biotechnology Park

# TARTU BIOTECHNOLOGY PARK

Tartu Biotechnology Park creates a favourable and innovative environment for entrepreneurship in health, cosmetics, biotech, and foodtech. By providing sector-specific support and connections, it enables founders to validate solutions and build partnerships. This domain expertise offers ARTEMIS a strong landing zone for life-science and digital-health concepts within health and environment.

# KICs

## Knowledge and Innovation Communities

- Tematiske nettverk
- Høy TRL (Technology Readiness Level), f.eks digital helse
- Mål om mer/lettere samarbeid. Søke midler gjennom Horisont Europa, EIT etc

**ARTEMIS**

& New Opportunities

Co-funded by  
the European Union

# Levende laboratorier

## Samskaping i praksis

- Reelle utfordringer – reelle løsninger
- Studenter – forskere – brukere
- Jobbe sammen for å løse utfordringer

# Shared mobility hubs

## User-centered

Bymiljøetaten, HVL researcher and students, (residents)

## Open-innovation ecosystem

Learning from other projects, current implementation (MobilPunkt), insights from students – foundation of policy advice

## Co-creation approach

Identification of problem and areas, sharing of data and knowledge (lectures), joint presentations and sharing of results for policy briefs

## Real-life communities and settings

Mobility and parking issues in three areas Kronstad, Fridalen and Solheim – where to best put a shared mobility hub and how to encourage residents to use it more?

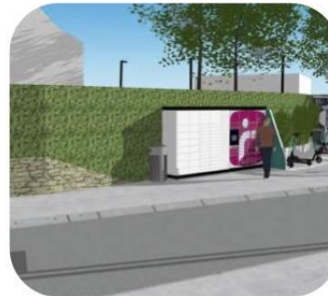

Slide: Wendy Tan

### Hunstadtorget mobilitetsstasjon

Sentralt på Hunstadtorget vil en særegen pergola av spiler og glass være blikkfanger som også danner ly for nedbør over en sitteplass med grønn vegetasjon i. Denne omringes av en stasjon for delesykler og en stasjon for el-sparkesykler på hver sin side. På enden av stasjonen for el-sparkesyklene er det også en pakkeboks. Alle fortauskanter har en slak helning slik at man lett kan sykle opp og ned fra veibanen. Et viktig element er også gode informasjonsskilt.

# Forskningsamarbeid

3 virtuelle forskningssentre:

- Teknologi & transport
- Helse & miljø
- Migrasjon og menneskerettigheter

# Forskningscentre

## Forsknings samarbeid

- Sampublisering
- Eksternfinansierte prosjekter
- Støtte til yngre forskere

# Praksisplasser

- Sende og motta
- Sykepleie, sosial arbeid, fysioterapi, ergoterapi, andre helseutdanninger
- Rekrutteringskanal?
